#### **WHY PACKAGING IS SO IMPORTANT?**

*Being expert in production of excellent quality is very important but not sufficient. For the fact that customers need and ask perfect material in their hand, we as suppliers have to care handling and transportation as well. The surface of Aluminium is quite sensitive, must be well protected to avoid damages.*

*Burak Alüminyum, with its deep experience in extrusions, gives highest importance to Packaging by using appropriate material combined with correct labourship. For a safe Packaging we consider the distance from factory to final destination, mode of transportation, vehicle to be used, as well as seasonal weather conditions.*

#### **WHAT TYPE OF PACKAGING?**

*For the safest delivery it is crucial to choose the right type of Packaging. We offer various alternatives for land, sea and air transportation. It is also important to decide on the optimum type in order to avoid extra cost for exaggerations. In this catalogue, you can find our most commonly used packaging alternatives. Please consult to our experts if you need any assistance to have the right Packaging type.*

*We also welcome special requirements of our customers. As Burak Aluminium, we are confident to claim that we are very experienced about packaging, and can answer all of our customers' needs.*
